

Apollo Bio-Fin Pro

Apollo Bio-Fins are independently voted the best overall fin in the world by Rodales Scuba Diving magazine and the first choice of many Military Special Forces units worldwide.

Key Features:

- Made from natural rubber, the very best fin material in the world.
- Innovative technology that eliminates muscle cramping for duration surface swimming and general diving.
- Reduces air consumption by up to 40%.
- Fantastic power and speed with little effort.
- Durable
- Fast to put on and take off
- Available in XT version, which is stiffer version for strong swimmers
