DESERTLITE TAN

STYLE #: 453MTN

FEATURES:

- Light Weight-Stability Redefined!
- Tested and approved by the 75th Ranger Regiment
- High traction non squeak outsole and molded EVA midsole unit. Siping on each lug provides the best combination of traction and cushion in a boot today.
- Stain Resistant Microfiber Suede upper with breathable nylon panels makes for one of the lightest boots on the market today.
- Mesh ventilation ports throughout the boot provide breathability not found in most boots.
- Reinforced lace loops are made not to fail in the field.
- Tried and true 550 paracord shoe lace.
- Reinforced inside toe to help when scaling walls.
- Full length composite molded shank provides support even when carrying a heavy load.
- Dual density cushioned footbed with mesh lining for increased wicking and foot comfort.
- Footbed is perforated to allow water drainage.

SIZE: 6-11 1/2, 12, 13, 14, 15
