

# OD TAC KNIFE TITANIUM

The Apollo OD TAC Knife – Titanium is a compact, mission-ready cutting tool engineered for military, tactical and professional diving operations. Manufactured from High-strength HRC-50 corrosion-resistant titanium, the knife provides high strength, durability and low magnetic signature characteristics suitable for sensitive maritime environments..

Designed for rapid access and reliable performance, the TAC Knife features a streamlined blade profile optimised for cutting rope, webbing, monofilament and entanglement hazards encountered during operational diving. Its compact form factor and secure sheath system make it suitable for integration with harnesses, BCDs and tactical load-bearing configurations.

## FEATURES

- **HRC 50 Titanium Blade** - High-strength titanium construction with superior corrosion resistance.
- **Low Magnetic Signature** – Suitable for operations requiring reduced magnetic presence
- **MOLLE-Compatible Kydex Sheath** – Rigid, high-retention sheath designed for tactical mounting systems
- **Rapid Deployment Design** – Secure retention with quick-access draw capability
- **Compact Tactical Profile** – Streamlined design for minimal drag and easy stowage
- **Combination Cutting Edge** – Optimised for rope, line and webbing
- **Secure Sheath System** – Kydex Sheath provides reliable retention and rapid deployment
- **Saltwater Resistant** – Non-rusting material suitable for repeated marine exposure
- **Ergonomic Handle** – Secure grip with gloved or bare hands

## OPERATIONAL ADVANTAGES

- Secure integration with MOLLE load-bearing systems
- Enhanced retention and durability through rigid Kydex sheath construction
- Reduced magnetic signature for sensitive operational environments
- Rapid access during entanglement or emergency scenarios
- Corrosion-resistant for sustained maritime deployment

## SPECIFICATIONS

SPECIFICATION	DETAIL
Blade Material	HRC 50 Titanium
Edge Type	Combination Edge (Straight / Serrated)
Magnetic Profile	Low Magnetic Signature
Sheath	MOLLE-Compatible Kydex Tactical Sheath
Corrosion Resistance	Saltwater Resistant / Non-Rusting Blade

## PRODUCT DATA

SKU	DESCRIPTION	NSN
